RECEIVER MULTICOUPLER

XRM-FF-PP Series
Comprod Inc. Xpandable Receiver Multicouplers are simple and compact. They are available in 2, 4, 8, 12 and 16 port configurations. This is an affordable means of combining multiple Rx frequencies onto the same antenna. We offer three mounting versions: our standard 19" rack, a tray mounted or a cavity mounted version. Each unit consists of a power splitter and an RF amplifier. Every Xpandable Receiver Multicoupler has the optional plug-in power supply.

- **Design**
  - Simple and cost effective
- **Mounting**
  - 19" rack mount (RM)
  - Cavity mount (CM)
  - Tray mount (TRM)
- **Optional power supply (PS)**
