

UHF + 700/800/900 DIPOLE

380-430 / 746-960 MHz

F-33508

The F-33508 is a combination of 4 UHF dipoles Plus 2 700/800/900 dipoles on the same mast. All dipoles are Low PIM (-150 dBc; two 20W carriers). All our antennas can be customized to your particular applications. The F-33508 antenna is top mount and has internal cabling and fixed dipole-mast spacing. The spacing dipoles to mast is half wavelength offering bi-directional radiation pattern.
